This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Zweiter Teil.
Das Paradies.

Nun grüsst den jungen Tag, auf ros'gen Schwingen
die Morgenröte, stille Pilgerin,
die Gott entnahm der ew'gen Sternenschaar,
und sie der Sonne zur Verkünderin,
auf ihrer Bahn hin durch die Welt, erkor.
Aus weiten Himmelssphären
erschauten sie die leuchtenden Gestirne;
und wie der Strahl sich bricht im Demant klar
so brach hervor, beim Glanz des ersten Tages,
der Freude Jubelsang der Engelschaar.

Parte Seconda.
Il Paradiso.

Candida l' alba sul creato mondo
l'ali movea, silente pellegrina
che Iddio distolse dall' eterno stuolo
e ancella al sol, ne l' orbita
lanciò, rettrice del virgineo volo.
Lei dal profondo, immote
le schiere dei celesti contemplavano
via digradante in digradanti rote;
e come raggio in vetro si rifrange
tale al brillar del dì, novello gaudio
cantava in seno alla spirtal falange.

Moderato assai, quasi lento.

Dritter Teil.

Die Erde.

Müde des Laufs auf ird'schen Triften
stieg froh empor das Licht nun zu den fernen
Grenzen des Weltalls, aufwärts zu den Sternen.
In dunklen Schluchten, nie erhellten Klüften
die noch kein lebend Wesen je betreten,
lachte sein Strahl; die Gipfel, die in Lüften
dort ragen, küsst' er sanft zum Leben,
dass sie in ros'gem Schimmer hold erröten.
— „Wo eilst du hin?" frug bebend
der sangbelebte Wald, und warm erglühte
er unterm Kuss des Lichts, die Wipfel rauschen,
indes erglänzte Baum und Blüte.
Doch weiter zog sein Strahl, zum Himmel strebend.
— „Wo eilst du hin?" o wollt ihr lauschen,
es rief's der Bach; dem ew'gen Schnee entronnen,
ist ihm zu schau'n vergönnt der Schöpfung Wonnen,
Und seine Silberquelle
küsste der Lichtstrahl: eine Purpurwelle
Goss hin sich über Fels und Stromesschnelle.
Und höher stieg's, wo schneegekrönte Häupter
sein Leuchten widerstrahlen: bald ereilt es
die Höhe, wo die Gottheit wohnt — dort weilt es —
und es erglüht in holdem Prangen
des Liebesblicks, da Gott es schaute wieder;
dann ist es mählich schlafen gangen;
es schloss die Flügel — auf die müde Erde
sank des Vergessens nächt'ger Schleier nieder.

Parte Terza.

La Terra.

Stanca delle terrestri
valli, movea la luce il vol giocondo
via digradante pe'i confin del mondo.
Fra gole ignote, per sentier silvestri
ch'orma vivente non avea segnata
ridea la Bella, e sulle fronti alpestri
un rossor verecondo
saliva a la carezza immacolata.
„Dove ne vai?" chiedea
la garrula foresta. Ella baciava
con l'alito divin la stormeggiante
che tutta s'allumava;
poi digradante in alto si perdea.
„Dove ne vai?" trillante
il ruscel ripetea, da nevi eterne
sorto a specchiar le immensità superne.
A le sue linfe il labro
dava la Bella: un'onda di cinabro
scorrea le rupi in cascatelle, al piano:
ella saliva! I culmini giganti
la rispecchiavan: su l'eccelse vette
giunse, miró il Signor; bella ristette:
in un lampo d'amore
tutta rifulse, vagheggiando Iddìo:
poscia, sorpresa da mortal sopore,
richiuse l'ali, e su l'ostello umano
scese il notturno amplesso dell' oblio.
